ODS ISSS 400W – CAMECT SMART CAMERA HUB OFFERS

Advanced AI Detection: Camect's powerful AI can identify over 30 object types, including people, vehicles, deliveries, and animals, ensuring precise and relevant alerts.

Accurate Alerts: By filtering out common false triggers such as weather, shadows, and insects, Camect reduces unnecessary notifications, allowing for more efficient monitoring.

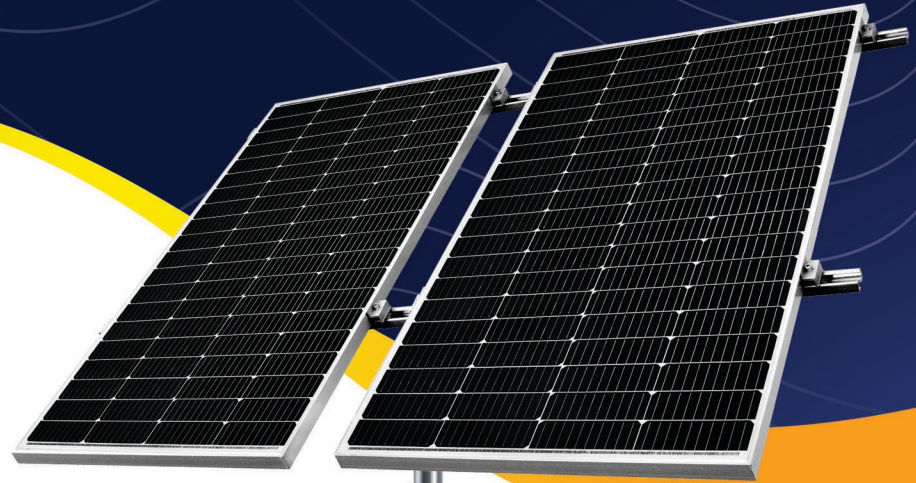

Private Local Storage: With 1TB of internal storage, expandable via external drives or network-attached storage, Camect securely stores video data locally, enhancing privacy and data control.

Continuous Recording: Camect provides 24/7 recording capabilities, ensuring that all events are captured without interruption.

Secure Remote Access: Users can securely access live and recorded video remotely via phone, tablet, computer, or Amazon Alexa devices, facilitating convenient monitoring from anywhere.
